

What is Precept?

What could be more important than knowing God and His will and living in relationship with Him? Precept Ministries International is dedicated to equipping people everywhere with the tools to discover Truth for themselves by studying God's Word inductively. Inductive bible study is the most powerful and rewarding method to personal discovery and longer retention.

What is Inductive Bible Study?

Observation, Interpretation, Application. Precept's method uses an investigative approach that takes each person to the text directly. If you can read a newspaper, you can study the Bible. Believers all over the world tell us these tools have made the most significant difference in their walk with God.
